

ALUR

OVERVIEW

Redefine the modern workplace.

Inspired by minimalist design, our ALUR architectural wall system is the pinnacle of performance and refinement.

Award-Winning Design

Qualifies for LEED Points

Superior Quality

Demountable and Reusable

Limited Lifetime Warranty

Exceptional Sound Control

GLASS WALL SOLUTIONS

Less is more.

The ALUR Glass Wall discreet glass-to-glass joints eliminate the need for vertical mullions, creating the stunning impression of a vast expanse of unsupported glass. Low-profile channels with minimal framing also create a much more streamlined appearance compared to other bulkier, heavy-framed storefront systems.

The aluminum is bead-blasted prior to anodizing, providing a flawless finish that is also fingerprint and scratch resistant. PVDF resin finishes are available in black, dark bronze, and white as well as matching custom-color finishes. Glass options include clear and low-iron tempered and laminated, gray and bronze tinted, acid etched, and white laminated.

GLASS WALL TECHNICAL FEATURES

Remarkably refined.

Seismic Approved

1/2" Thick Glass

Up to 10' High

Scratch-Resistant Finish

Frameless Glass System

Structural Polycarbonate Joints

DIVIDING WALL SOLUTIONS

Artfully adaptable.

Designed as the perfect companion to ALUR Glass Wall, ALUR Dividing Wall features easy-to-assemble frames, off-module design, integrated power, and voice and data cabling for greater flexibility in adapting to changes in layout and technology.

Wall frames are capable of supporting hang-on furniture components on both sides of the wall. Wall tiles are available in thermofused and high-pressure laminate, fabric, tackable, and whiteboard as well as COM options.
